Section 7—Jet Airplanes Leased Out by Airlines at Year-End 1981, Sorted by Name of Lessor 79-80

Introduction

Data in this edition of "World Jet Airplane Inventory" reflect as accurately as possible the status of the world's jet fleets at the end of the year 1981.

"World Jet Airplane Inventory" is a computer printout based on JETTRACK, a computerized airplane inventory system kept by the Market Research Department of the Boeing Commercial Airplane Company.

Fleet data in JETTRACK are obtained from many sources, including manufacturers, airplane operators, governments, trade publications, etc.

The inventory lists and other analyses shown in this issue include commercial turbojet and turbofan airplanes (and some military derivatives)built in the United States and Western Europe. Equipment built in the U.S.S.R. is included only in Section 4: "Inventory by Type and Series," and Section 6: "Detail by Operator." Data for Aeroflot are not included

The tabulations include all jet airplanes delivered to the market through December 31, 1981. This includes a few airplanes which were never sold by the manufacturer, but which entered the commercial market on a lease basis. It also includes airplanes which were once delivered to commercial operators, and later traded-in by or sold back to a manufacturer. Not included are those manufacturer-owned airplanes which were never sold but are—or were—exclusively used for purposes such as flight testing, etc.

Excluded are airplanes which are permanently out of service: written-off, dismantled, withdrawn from service and awaiting dismantling, donated to museums, etc.

A limited number of airplanes included in the inventory lists were not actually in service at the end of 1981. Some were temporarily laid-up, others were awaiting resale or possible retirement. No attempt was made to identify these airplanes in this publication.

Leased airplanes are usually included in the fleets of the operators. No attempt was made to identify leased equipment in the fleet inventory lists. Section 7, however, provides details on airplanes leased out by airlines.

Abbreviations

Operators names in the lists are often abbreviated and may, therefore, vary from official names.

Some often-used abbreviations in operator names:

AL	Airline(s) Aerolineas, etc.
AT	Air Transport, Aero Transportes, etc.
ATC	Air Travel Club
AV	Aerovias
AVN	Aviation
AW	Airways
GOVT	Government
INTL	International
TA	Transportes Aereos, etc.

In Section 1 and 5, three-letter abbreviations have been used for airplane types. The abbreviations are mostly self-explanatory with the exception of the following:

U.S.-built airplanes:

CVR	Convair 880 and 990
D10	DC-10-10/-15
DLR	DC-10-30/-40
L10	L-1011-1/-100/-200
LLR	L-1011-500
727	727-100/-100C/QC
72S	727-200

Airplanes built in Western Europe:

A31	A310
A30	A300
BAC	BAC One-Eleven
146	BAe 146
CMT	Comet
CON	Concorde
CVL	Caravelle
MRC	Mercure
TRD	Trident
VFW	VFW 614
V10	VC10 and Super VC10

Sections 4, 6, and 7 give details by airplane type and series. In these tabulations the 747 Combi is shown as 747-100M or 747-200M. The 727-100QC's are included in the 727-100C numbers.
